Movies...one not mentioned by anyone was Transformers III, No Megan Fox was a plus, plot was good and special effects/CGI was stupendous as always...still it was just another sequel.

Thor, I completely agree with DarqueImages, but I rather enjoyed the appearance of Clint Barton in it.

Capt America was very well done and an awesome flick.

Rise of Planet of the Apes, Probably the best movie of the summer...(does that count as comic flavor?)

Conan was very well done, a little slow in parts, but the story and fight scenes were well done.

GL, was somewhat disappointed...Quote:
