Very pessimistic appraisal Jr. Look I have been through Earth Prime to Earth-googleplx-X9, to Crisis of Infinite Earths-Infinite Crisis- Final Crisis. Ive seen about 3-4 different variations of Supes origins. Three or four different W Women. FOUR FREAKING GREEN LANTERNS! ARRRGH! Spider Clones, Two Thors and who knows how may parallel universes, alternate timelines etc. PLUS the continuing retconning of numerous heroes, so this does not bother me all that much. Hell I survived looking at Leifields art all those years/ I will survue this too.

I will paraphrase the master Julie Schwartz. Every few years you have got to destroy the universe and start over. Remember they are not writing this for us old geeks, they must recycle the audience with new blood.

BTW the end panel of Detective.... Holy shit.
