well im not sure about the availability but there used to be sets of free hero textures [superman, batman, captain america etc] for the gen 3 micheal figure created by a guy who used to hang out at animotions.com named vadlor [i think] as far as i know most all g3 second skin textures are compatible to other g3 figures. u might have to do some minor tweaking but it should be no problem. if this doesnt help or you still have issues..pm me and i'll see what i can do to help.
