It is that time of year where we mods will start a little spring cleaning in the galleries to make room for fresh new art. There are a few things to remember in doing this:

1. It is not a personal attack on any Artist. Do not Complain to us about this.
2. Once an image is deleted DO NOT repost the image. The image was deleted to make room for new, fresh art. It has had it's 15 minutes of Fame.

If a deleted images is re posted, it will be deleted and you will be warned. If the image is reposted again after being warned, then disciplinary actions can ensue.

3. Deleting the image will also remove any comments within it. If you are worried about your post count, deal with it. it will fluctuate. Do not Complain to us about this.

Each year we go through this list of troubles and complaints. This is to inform Artist how we will be dealing with complaints of this nature.
