1st: Thayne, thank you for proving that you really do know completely random shit that is pretty impressive. I have never even heard of that book... but now I am going to hunt it down.

i hated charlie and the chocolate factory

Conan wasn't bad, but man, Arnold was the man. As for Charlie and the Chocolate factory. The first one was sooo much better than the second one. There was conflict and morals to be taught... And the Oompa Loompas had personalities and were all different. The re-make... I like Depp, so I thought he did a good job acting like a total nut (like he does in almost all his parts) But the music was, MEH, and all the Oompa Loompas were the same dude. It wasn't bad, but it can't compare to the original. With that said... Vash... you are a NUT for not liking Charlie and the Chocolate Factory.

Here: Original Wonka. Man, they call the kid fat. That ROCKS.

OR

Remake: YAWN... catchy, but

Wait... what was this thread about. I think I just hijacked my own thread.
