Ahh... I have to go with my favorite on this. And lets make this interesting.

Happy Gilmore - Richard Kiel

We'll keep moving on... but I don't know If OCP understands the rules. Tim Blake Nelson was not in the Transformers.

But John Turturro was in "O Brother where art thou?"

What?

Isn't the rule post a movie with a co-star from previous one? I saw nothing about both have to be on next movie.

Anyhooo... Forrest Gump - Sally Field

OK... I know this doesn't make sense, so here is a sample:

I start with:

1 Johnny Depp

Next person would say:

2 Sleepy Hollow. Christina Ricci

etc:

3 Black Snake Moan. Samuel L Jackson

4 Pulp Fiction. John Travolta

and so on. Does this make sense? I hope so....

How could you miss that? LOL
