Well Vash, since you have enough skills to put together your own icon, you certainly have enough for this challenge.

First, there's a grid template with instructions for you to work right on top of.
It can be found [HERE](#)

Next, you figure out what inspires you... for example, you might choose Trigun, Marvel Superheroines and Aiko as some of your inspirations.

Then you find images that convey those inspirations... a particularly well drawn Scarlet Witch panel, a Trigun screenshot, etc. I used google image search as the quickest way to find the images I wanted.

Lastly, you re-size and crop those images into various tile sizes and paste your image tiles over the grid using your favorite graphics program (I use photoshop). Then you add your name (Vash99) before "Influence Map" at the top. ...and that's all there is to it.

Both Starchild and Myself have done one so far.

Now we each chose our own backgrounds and stylized fonts for the title and text labeling those inspiration images but you don't have to go that far if you don't want to. You can make it complex if you want but it really can be as simple as fill in the grid with your favorite pics.

Come on Vash, step up!
Let's see what you got! Looking forward to seeing yours!
