'Wolf' was/is a character that I created for the rpg "Stalking The Night Fantastic", from TriTac Games. (Think covert X-Files) It got to the point that I was asked to become a module contributor / testor, so, of course, 'Wolf' retired; and I now run him as an NPC. If the gamers are in deep doggy doo, He shows up, gets them back on track, and rides his cycle off into the night.

And, like Wolf, I have always loved the wolves of the forest. They are very beautiful creatures...and, IF re-incarnation does happen, I want to come back as one. Preferably with me lady 'Pat' as my bitch. And, of course, you are all invited to join the pack...just don't forget the beer!
