Ok here it is.

Since this is the october challenge, this is the only thing that makes sense.

So take any comic book character and put them in a Halloween themed picture (Draw, paint, or manip). Try to make it dark and scary. No pin-up style manips. Covers, scenes, action shots, displays of power are more then welcome. Make sure the picture has some element of Halloween in it, like jack'o'lanterns or decorations in the background etc.

Post it on Halloween, no sooner, no later.

And Most important Have fun.

The Winner will be decided by a poll. The prize, a custom avatar of course
