Hey! Ego trips are my specialty. I gots me fingerprints on the Moon for crying out loud (nonfiction)! I even got kicked from my last gig for my "traveling" extravagance.

Anywho, dangit! Post on Halloween? Shoot. I already posted...well, I suppose I'll have to cough up a fresh one.

Probably gets me clobbered though. Unlike my last gig, there's a few artists lurking here far my better. Looking forward to the mele though.

So I'm new round here. What's the judging criteria? Style? Kwality? Visual impact/energy? Scariness? Sex appeal? Little clue here?
