My beef with this film was the fact that, not only was the storyline...meh... weak, but it seemed to be a merger between several story lines within the comic itself. So this must have been the idea: Lets take Extremis, add in a pinch of the Mandarin story arc to entice the fans, throw in the Iron Patriot from the Civil War comics, make Stark completely neurotic and worthless, have several suits that "save the day", when in actuality, Pepper saves the day. AND THEN at the end...remove the shrapnel, take away Pepper's powers, and in general, alienate every hardcore fan out there.

I can't say it was the worst Ironman film ever, but it certainly wasn't the best...by far.
