What I hate here is this "serie" as most of the Marvel serie is taking us for dumb consumer again...(same as in comic at the moment)

as many movies lately villain are "slaughtered", Silvermane? a buffon, The mandarin, Ditto! Obedia Stane was good, and The Whiplash too, but except that...

we have a very bad iron patriot (slaughtered version of Osborn patriot)

an awful mandarin, being the phony and the not phony (who could be many super villain of Marvel) BUT the mandarin, and no it is not the Brandon (powered armor here) also the A.I.M. is bad too

Lets not talk about Iron Pepper very far away of the comic version...

Check one simple thing that appear in Iron man 2 and then in the avenger movie, the black widow bracers, the trade mark weapon of this character, do you seen it? NO! and it is way more simpler to do than many FX in the movies...

Iron Man 3 simply pushed me to not see the Iron Man 4 (if there is one) nor the avenger to come or any Marvel related movies
