Dang, I better strap myself in because this appears to be one bumpy forum!

Good to hear from ya, DI! While I do believe in miracles {'specially since I seen 'em from Jr!), at least ya showed up with a good excuse since I know plenty o' folks who was beggin' for challenges that I ain't heard a peep from here.

Now's where I subject y'all to my tale of woe,

... personal problems, battlin' with lawyers, no ideas for the challenge and trying to learn Daz Studio 4 and Genesis (finally) which has misplaced all my stuff, changed much of it's interface and forced me to learn to do a number of things in different manners... STILL, I'm gonna be in. Ya know, it not too late to participate (although time is winding down).
