I remember what drew me here years ago. There was an ad in InQuest magazine from Wizard. It was for Comic Babes. Wizard had a site dedicated to Cosplay and Photo Manipulations of Female super heroes. A lot of the images had "By Such and such from Heromorph. Some of the Art I found was down right beautiful, Some I had the mind set of I think I could do better than that. I did a search, found Heromorph and downloaded Paint shop pro 3 and set out on my adventures...

Since then I have come to call HM a home filled with great people I call family and proud to be here to help anyway I can.

HAPPY Anniversary HEROMORPH
