For those that have seen my Mercury. She has a Lady Deathstrike feel to her, which in return gave me the idea of making a Lady Deathstrike image... Here's my dilemma, I have only seen Lady Deathstrike in 2 movies, the Animated Hulk Vs. and one of the X-Men movies, which one should I portray, the comic book version, the animated version or the X-Men movie version?...

Here's the link to my take at Mercury, for benefit of those that haven't seen it, or those that want to see it again...
