Thor as a woman. It was done years ago in the "Earth X, Paradise X, and Universe X" Loki had tricked Thor and transformed him into a woman. This may be the way they could be going now.

Falcon as the New Cap. Never did they say he was actually taking his place did they? This could very well be as part of a new Avengers West Coast, Keeping Both Captain Americas. After all, in all this, also add that they are moving Stark to the west cost for no reason.

Since they did "Marvel Now" I have only kept up with "All New X-Men"
