Honestly, there's nothing I can say that won't make me sound sexist or racist, so I'll just say "DAMMIT DISNEY! What are you doing to Marvel?!?"

Seriously, like DW said, the female Thor has been done.. "Thorina" ring any bells? I don't know why they opted for the gender swap and hopefully it plays out as "a woman is found worthy of Thor's hammer". This could be a good thing..or it could go horribly wrong. Lots of fans are already in an uproar about it.

Sam Wilson as Captain America? I see what they're doing there. It's all about being P.C. and whatnot. Like his being Falcon wasn't good enough for Disney. From what I've read on it, Rogers survives his attempted assassination and passes the mantle onto his friend Wilson (Willlllllson!!! "Castaway" Moment) and decides to play mentor in the background... ala Bruce Wayne in "Batman Beyond". But from what I understood...said attempted assassination was successful. I don't know, I guess I've just been out of the "comic book world loop" too long.

I wonder what the next big plan is... A Mexican Human Torch? A male Black Widow? Maybe even making Magneto accepting of humans and breaking into song every ten minutes?
