Either this month or in the next few they will indeed be killing off Logan. I stopped reading comics when Magneto ripped the Admantium out of every pore of Wolverine's body. A few years ago I picked up a Previews and started with a few indie comics from issue one. then picked up the first issues from Marvel when they started Marvel Now. Instead of trying to keep up with every thing going on in the Marvel Universe and all the crossovers going on, I have stayed with "All New X-Men" I read Previews to catch up with brief glimpses of the marvel verse. Anymore I just take anything created these days as an alternate universe and just roll with it, just setback and enjoy the show. I find it a little refreshing from the Hollywood point of view. It has, for the most part, given us something new from Hollywood. They are not rehashes or remakes of movies from 20-30 years ago.

LOL

Marvel Owns Thor.

Thor is the son of Odin, a King.

Disney bought Marvel.

Thor is now a woman.

Disney now has a new Princess :)
