WOW! Great catches, Rougewing and Star!! I had missed all of that. Firestorm! It looks like they've set up potential to introduce a lot of great characters from the comics.

Don't get me wrong either, Star... I get what you're saying, Flash has used his powers in really cool ways in the comic and so far all he does is run back and forth on the show. I am a little intrigued by the way they're setting up the characters and stories for now but I'm hoping we get to see him do more too. I'm also hoping he'll develop a personality more like the one in the animated Justice League: a little cocky and humorous. Right now, it feels a little too much like Peter Parker to me... but I'm holding out a little hope for this show.

Yeah, I hear ya, DragonDack, although one can't expect those "comic book" moments, on those rare occasions when they do come, it can be a little magical and Smallville definitely had it's share of those moments. Also smart of you to note Arrow's Atom reference as since Arrow himself has already shown up, crossovers have already been established and all those heroes and villains from Arrow could show up too!
