Thanks for saving my ass for Secret Santa. If my Christmas rush is like it was next year, I don't think I will be able to participate again. I was blind sided.
Also, I have been trying to figure out how to go through my runtimes and organize ans delete stuff. Do you have a tutorial for that? Since I am not a poser/daz person, I don't use hardly anything. Almost everything I have in the Runtime was "Ohhh... lets see what that does" and then never used again. I would really like to start a runtime from scratch, but I have no clue what I need to do it. So, you might be on a rendering Hiatus, but you need to create a "Manage your runtime" tutorial. LOL
Thanks again for the secret santa save.
