I think my point was missed.

When I first heard of Kelsy taking on the role of Beast, I thought it was a horrible Idea. I watched the movie. I ate Crow by the shovel fulls. I can not see anyone else playing the Part.He IS Beast hands down.

When I heard Affelck is playing Batman, I will hold my judgement, trying not to compare it to his role of Dare Devil, which was horrid. Same goes for this.

I will hold judgement until I see this movie as well.
