I just watched the TV trailer and Cat Grant is Calista Flockhart I think(been so long since I've seen her in anything) but that's not so much my problem as Jimmy Olsen being Black!!!! What's with that? Well if you think about it. A black Jimmy Olsen should have been expected in today's trend of live comic movies/shows. There's a black Iris West on Flash, we had a black Perry White in Man of Steel and there's a black Johnny Storm on the way. Did you have an issue with a black Pete Ross on Smallville? It's just the network's way of reaching a broader audience. I wonder though how serious the writers think true comic fans will take this series. Where the heck did the sister come from? Or the glasses? And just how many people is she gonna let in on her secret? Don't get me wrong I'm gonna watch but it's going on a short leash.
