Howdy folks,

I was looking at our top images and noticed one thing: some members don't use a personalized avatar.

There can be multiple reasons as why that happens but it gave me inspiration to start a new challenge:

Those of you brave enough to accept it just have to follow a simple set of rules:

Create an image to be your personalized Avatar. Max size 597Kb (thank you DI)
Follow the steps on the tutorial below.

- I. _____
- II. _____
- III. _____

Use this Avatar for at least one month and leave a reply here saying you're participating.

«--IMPORTANT!

No adult images allowed as Avatar.

At the end of every Month from now on, we are gonna put all images entering this challenge to a vote.

The winner will get a personalized rank... or... -->**insert month**

Best of luck for all participants and let's make some awesome art.

I'm curious to see how some of you will present yourselves.

To start this challenge the easy way, we will put a poll with some personalized avatars already being used to pick January's winner next week. If you have a personalized avatar and want it to enter, just leave a reply saying so at this thread.
