I've been enjoying it far more than I expected. To me, the main strength of Archie has always been the iconic characters, while the main weakness is the unfunny cookie-cutter plots... Riverdale keeps the characters largely intact (though less silly) and ditches the dreadfully silly comedy for perfectly solid Twin Peaks/Veronica Mars style small-town-with-dark secrets soap opera. I don't think it's the greatest thing since sliced bread or anything, but yeah-- it's good.
