Still coming up "Protector detects attacking actions"  
in posting even after the suggested changed?

So what next?

I tried doing it three different ways with your suggested changes and I still can't post it?

This is what the Protector log says:

Quote:

**Attempt to multiple dot file Dr. Goldfoot and the Bikini Machine.jpg.**

See what I mean?

I said REMOVE THE DOTS. The dot In RED must go!

Please, just rename your image to DRGOLDFOOT and try again. It will work. I tested.
