Hell, I almost missed this year! Thank the All-Father for email alerts, you know I'm down for some hastily scabbled together pencil doodlin's!

Or, y'know, media of choice, 'sall good.

1. Elisa Cameron, (Dark Horse's Ghost)
2. Any Spidey villain, save the symbiotes, not in the recent PS4 game, but redesigned for that universe.
3. Hmm...I 'unno, let's go super-eclectic here and say, something from ElfQuest. Leetah, Cutter, Winnowill, Two-Edge, dealer's choice, right?
