Inappropriate superhero product endorsements.- This is a pretty cool idea. original. but I would really like to try an alternate costume design.

Heroes out of time.- I like this one. of the redesign ideas, I think this poses the most interesting challenge.

Amalgam.- what if I don't like the 2 characters you choose. cool idea, but not as much fun as an elseworlds-type character.

Gender change.- oldie, but a ...well, its an oldie. not too much excitement there.

Original character- no offense but, \*yawn\*

Who???????s your Daddy?- I like this almost as much as the out of time. Similar to the amalgam, but you get to choose the characters yourself. while this is interesting, the out of time idea adds another dimension to the challenge.

sorry if I sounded a bit rude; all the ideas are cool (I just spent my whole day explaining simple addition to a room full of morons. and one of 'em signs my paycheck).

but yeah, I'd like to try the out of time idea.
