I haven't logged into the store in quite a while but now when I try it tells me that my password doesn't match what is on file. So I clicked forgot password and it tells me a message was sent to my email address but for some reason I'm not getting the email. I have checked every folder in my mail and they aren't being received.

Send me an email with the email for your store account and I can reply with a new password for you.
