He was more than a friend to me, he was one of the first teachers I had when I started manipulating. He spent some time explaining to me how to start and how to improve. He even shared his tutorial on metals with me..

I had the pleasure of working with him on some Heromorph challenges and the Secret Santa.

He was always the driving force to some of those.

He really loved Secret Santa.

R.I.P my friend.

You will be missed.

Safe journey.
