Jr, you're off the hook.

with a bit of cojoling, newcomers Styx and Cyanure have agreed to judge. unfortunately we could not find a replacement for BB, so we're stuck with him.

Just for clarification, Black Alchemy has graciously allowed adding or altering to the "refridgerator" in the base image. we should all thank him because my entry would probably have been reaaally boring without it.

If this is not what you meant BA, let me know.
