Brick... back before the site crashed bofus (VE and myself) wrote up some pretty good descriptions for you... but they dissapeared with the the crash... so... sorry that you didn't have anything to go on.

I am not going to re-type what I had said becasue it was probably all BS anyway.

Butl will repeat my choice of tree... I would be a cedar... You have to uproot them to kill them and they drink like a fish!!!

Kinda like me...
