Y'all go ahead and judge... like I said, I haven't heard from Vagabondeye since the crash... He replied to the dual post but I didn't read it... But I think he took his Crayons and went home. Not sure. Vagabondeye... if you are out there say something... If you want.

Lets go ahead and sweep this one under the carpet.

Brick has cast his vote..

Shade, you and Dark Wanderer cast yours... Please...

thanks for volunteering!
