Tremendously complex set of rules by Max...

Uh, hunh? Wha? Could you do that again, maybe with a PowerPoint presentation? Or a few graphs?

How tough is this? C'mon, I gave you a list of mutual artists, can you place them into three groups?

I can. If we can't get an artist from C2F, we take one of the dual artists in his/her place. Set a Theme (or not), pull the trigger and stand back.

Do you want to wait for people to sign up, or should we do something different this time and invite artists? It's up to you two guys.
