Ok. Now that we have teams in place. I would like to know... What the challenge is going to be, and when is going to start.

It's not really a challenge... it's an intersite team-up like there was last year. Each HMorpher teams up with one C2Fer and they produce a team-up pic. The deadline for signing up is Jan 15, so I guess it'll start a bit after that, once pairings are announced.
