sadly this is still going on. one of your members, WarrEnPeace has been posting my work without my knowledge. he has credited others in his posts but none was given to me and it looks like he's claiming my art as his own. i am MillenniumBum from comics2film. normally, this issue wouldn't bug me IF my permission was asked. i ask the moderators to please contact this person or take down my art at the least. i would like to post my art here as well like Localhero, Marcelo Gomes and all my other peers in C2F. thank you for your time.
