And also PLEASE, P-L-E-A-S-E, when posting comments, Keep the type all lower case! UPPER CASE letters use twice as much bandwidth as lower case letters. We have to conserve anywhere we can, folks. DO YOUR PART.

Seriously, on average I have found that you can drop the setting as low as 50-60 without losing any noticeable quality.
And lets face it, your pic wasn't *that* good to begin with!!
