This is true.

Also anybody knows that such an accusation leveled against Winterhawk has no merit whatsoever...

If your basing the accusation off the quote you posted, it could just as well mean "an independent panel of \_judges\_ as opposed to \_votes\_"...

If it was truly an insinuation that your cooking the results, well that???????s just juvenile.

And as a moderator who has not received \_any\_ votes, I certify everything's on the up and up.

Put the picture back up dude.
