Please delete all my images (public and adult).

Plus a WW under Optical????????s name and one in the D & B folder.

But if you could leave my March challenge entry up until that one is over, thanks.

By my reckoning I believe I have 87 photos, which means I have about 1.95% of all the images here.

In the near future I should have my own website up and I will repost them all there. When done I?????????ll link to the site from here and post updates and previews at HM.

Max ????????? Not quite a collector????????s item.
