Guys, this was meant to be a minor clean up. We are not in great danger. We are growing and new files are coming faster and faster. I was thinking of the removal of a few images from each gallery, Older ones that most people don't mind removing, not the removal of entire galleries. We have a long way to go before that will be necessary. If the web space becomes a bigger problem we can go threw the galleries and remove the images of artists that are no longer members here, we can remove all the art posted by others etc..

I appreciate all the responses to help out but Please, Don????????t get carried away.
