This has nothing to do with the June Challenge, but I do have a question. Where are all the challenge entries from the past months? I have gone to the Challenges & duels gallery wanting to look at some of them but I only see a few here and there. Is the gallery only for winners of challenges? Or is it just because members don't actually post their challenge entries in the gallery? I just ask this because there have been some challenge pics from the past that I would like to view again but can't exactly remember who posted it.

You mean the Monthly & Other Challenges subgallery in the Award Winning Art section of the galleries. Yes, that section is only for the winners.
