I know everyone is pretty geeked about this upcoming movie. I mean this thread has been running for months. But will it really matter who they pick if the movie sucks

? Just look at Catwoman and Elektra...Halle Berry and Jennifer Garner, now who could ask for more better leads. Or even Barb Wire [Pam Anderson at her sexiest]. But honestly now that you've seen the movies who would want to see them again?

I'm not trying to throw salt on this topic, but it's still gonna boil down to a "Let's just wait and see" thing.

Oh and BTW. My pick is still Catherine Zeta Jones.
