Hey Mods, What happened to my June Challenge Manip?

It didn't get counted. Don't think it was a matter of ball-dropping, but if you read down a bit, to my post where I asked all submitters to let me know what their entries were....

Since NO one replied, WinterHawk gave me a list of current entries he had, and I went by that. I guess your pic was submitted after he made the list.
Sorry no one got a chance to vote on your pic.
