Alright, I wasn't going to lower myself to feed this nasty wench. However, I thought I would just reiterate what Jr had said a long, long, looonngg time ago...this movie will suck. Just kidding. What I really wanna know is if some of you are really serious about this thread? I mean I've never seen such devotion to a movie/comic adaption before. You go guys, give those nerds from Star Trek and Star Wars a run for their money. Hold on to your dream girls for in your mind is as close to a real girl you will get. Drop those celebrity names like a two bit second rate wannabe B actor at a social funtion for the A list elite. And when the movie comes and goes? What then will happen? Where will this thread go? What will become of you who made your day by fantasizing about the pinup of Catherine Bell, Tyra or even Whistlers mother (for those of you with a wrinkle fetish) becoming WW? I pray for you all. I pray that some day, you will let this gentle giant lie down and just wither away. If not for your own sake, then for the sake of nerds everywhere.

What in the hell are you talking about???? I'm not dedicated to the movie. I could care less! I'm furthering the cause of this threads massive take over! ALL SHALL BOW BEFORE HER!!!!!!
