Oh man, that is sick. And admittedly impressive.

I know this is Asia, so it probably doesn't apply, but how do you get it inspected? Registration says Acura, car is obviously Ferrari.

I imagine by the time they were done, the amount of time and money that went into the car was the equivalent of the price of the Ferrari.

Hmm, I remember this Thread, I'm the one who started it. Therefore, time for some more Fun Break links. This time, our focus is on Flash:

[Samorost](#). How long will it take you to figure out? All solutions can be provided, for the right price...

[Tetka](#). Hours of fun...

[Nose Pilot](#). Very impressive Flash art, done long ago with a _very_ early version of Flash. Be impressed.

I have to dig around in my dungeon for more, I have them around here somewhere, here, look in that chest over there...
